

Current Affairs

The general feeling of unrest throughout the world presents an ever changing series of problems which effect the future of all nations. Every day brings some new development in the world situation. Changing economic and political conditions have their bearing on events to come. The implication of the daily parade of events is difficult to understand except in relationship to the entire situation.

To present the background information which led to the present day happenings and to discuss the ways in which nations maneuver in world affairs, the

Current Affairs Forum is scheduled on Friday at 7:30 P.M. Each week important problems facing the nation and the world are discussed by authorities in the field.

The forum is arranged by Prof. W. R. Fee (c), Head of the Department of History and Political Science at Michigan State College. Other participants, Prof. Hans Leonhardt (1), Prof. R. C. Hendrickson (r) and others are drawn from the department and from other resource persons on the college staff.

We invite you to hear the Current Affairs Forum regularly as a means of keeping abreast of the rapidly moving events as reported in the daily news.
